Regional Strategy for Latin America and the Caribbean on Sustainable Consumption and Production Roadmap, 2015-2016

This 2015-2016 Roadmap presents the milestones and activities to support the implementation of the Regional Strategy on Sustainable Consumption and Production (SCP) for the 10YFP implementation in Latin-America and the Caribbean (2015-2022).

This Roadmap includes on-going and financed activities at the regional, sub-regional and national levels, as well as other activities planned for this year. The implementation framework of some of the activities extends to 2016.

This is an “alive” document that will grow stronger with the cooperation of more actors. Any government, civil society representative and/or agency carrying out SCP projects is invited to contribute and sum up efforts to generate synergies and support the implementation of the regional strategy and the 10YFP to accelerate the transition to sustainable consumption and production patterns.

UNEP’s Secretariat, in the Regional Office from Latin America and the Caribbean, receives inputs and suggestions from other partnerships, initiatives and projects that are willing to contribute. We are grateful to receive comments and suggestions to adriana.zacarias@unep.org and jose.domenech.affiliate@mail.pnuma.org.
